# **ABELDent LS**

### Local Server-Based Practice Management Software

#### Why ABELDent LS?

Decades of ongoing collaboration with dental practices across Canada have created the advanced ABELDent LS software that is available today. You can be sure it provides all the functionality that improves your practice efficiency and maximizes your return on investment.

With ABELDent LS, both the ABELDent application and your practice data reside on a local server. It's the perfect solution if your internet does not meet the prerequisites for ABELDent CS (Cloud Server-based solution) and/or you prefer your data to be stored and accessed locally.

#### How Does it Work Better?

- The Appointment Scheduler serves at the administrative hub to perform all daily tasks efficient workflows provide ease of use and saves you time searching.
- The Treatment Manager prevents unscheduled treatment from getting lost and is integrated with the Scheduler to save even more time and ensure your appointment book remains full.
- Want to go paperless? No problem! Full Charting and Clinical Notes are included at no extra cost.

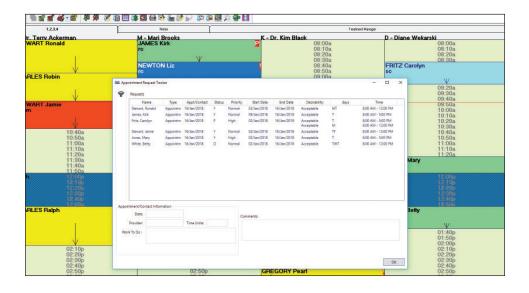

#### Efficient Workflows for Your Entire Team = A Better Patient Experience

#### ABELDent LS is your best choice for achieving these practice objectives:

- Metric reporting for practice monitoring and performance measurement
- Maximize hygiene and treatment plan bookings
- Growth and sustainment a loyal patient base
- Optimized resource utilization
- Easy transition to a fully paperless office
- Enhanced system security

#### Appointment Scheduler

All it takes is a click on an appointment screen icon to access patient information, financial transactions, outstanding treatment plans for booking, or the clinical chart. No need to navigate between multiple screens – once finished, it's easy to return to the Scheduler to process or schedule another patient.

#### Patient File

Find everything in one place! The Patient File makes it easy to access any information or perform a function by clicking on the corresponding file tab. No need to search for menus or navigate through various windows. And, the Scheduler is a click away. This logical workflow saves time so you can be more productive!

#### ABELDent is Canada's Leading Dental Practice Management Solution

#### Treatment Manager

Quickly identify unbooked treatment/recalls by provider, procedure and other criteria. Know the best time and most effective way to contact patients and prevent recommended treatment from being lost or forgotten. Easy access to due date, scheduling preferences, insurance coverage, follow-up attempts, and canceled/missed/ changed appointments helps you keep your team productive.

#### Clinical Chart

The clinical chart eliminates the need for paper charts resulting in significant cost savings. Administrative synergies, error reduction and time savings are achieved since billable services and planned treatment are entered electronically from the operatory. One click opens any Patient File tab and the Appointment Scheduler.

The ABELDent software supports my application of dental practice management concepts, which helps me to manage our office most efficiently! We use ABELDent workflows for all administrative tasks and clinical charting and I have confidently recommended it to colleagues in other dental offices.

Shoreline Dentistry

Love the ABEL support staff! They are very knowledgeable and honest, a great help and always pleasant.

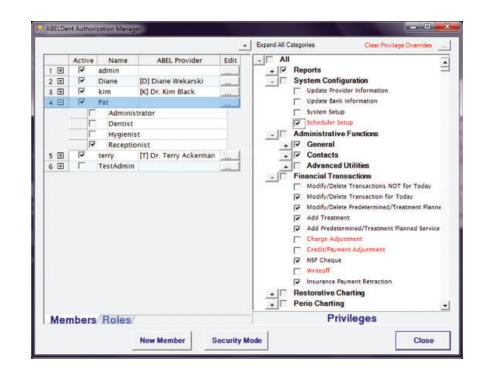

Atlantic Dental

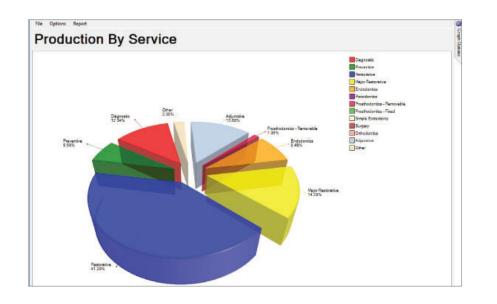

info@ABELSoft.com

#### Authorization Manager

Keep your patient information safe and private, and comply with Regulatory requirements by authorizing which users have access to dozens of system features.

ABELDent software also tracks and reports important changes in data including edited or deleted financial records.

#### Reporting

Measure and monitor practice growth, demographic trends and provider capacity and productivity. Check recall retention, compare production between two time periods, ensure that you meet collections targets and much more. Metrics to support making wise business decisions are presented in graphical and tabular form.
